Summary

After completing Graduation in Computer Science from PMAS-UAAR in 2017, I started my career as an iOS developer. With technical expertise as an iOS developer, I have 4+ years of Native iOS development experience working in Swift & Objective-C. I've worked in a fast-paced AGILE environment which has included the complete App life cycle from Architecture to Publishing on the App Store. I have developed over 15 iOS & iPad Apps which include Fintech, Marketplaces, Healthcare, Salons, Transportation/Realtime Tracking, Photo & Video, Payment Integrations, Social Media, Audio Calling & Chat Apps. I have a knack for writing quality reusable code, writing tests, and making beautiful UI Designs. I'm attaching a few of my projects. My detailed profile+portfolio will also be linked with this proposal. I believe I also have good communication skills, having worked with a variety of teams and international clientele.
